🎓 Education

B.Tech in Artificial Intelligence & Data Science, SRM University, 2024

📁 Experience

Data Science Intern – Infosys (Jan 2024 – Jun 2024)

Built a machine learning model to predict customer churn with 89% accuracy.

Created dashboards using Tableau to visualize sales and engagement metrics.

🧠 Skills

Python, Pandas, NumPy, Scikit-learn, TensorFlow, SQL, Data Visualization, Tableau, Machine Learning, Deep Learning

🔧 Projects

Heart Disease Prediction: Built an ML model using Logistic Regression & Random Forest.

Movie Recommendation System: Used collaborative filtering with Python.

🌱 Interests

AI in healthcare, predictive analytics, and model deployment.
